

## Hargreaves Industrial Services

Welcome to our latest newsletter! We're pleased to share the latest news on our initiatives, success stories, and developments from our organisation. Stay connected with our community and receive firsthand details about recent events, and more.

### Safety Update

Managing Director Sean Hager, kicked off our bi-annual Safety Conference which focuses on sharing challenges and successes from the past 6 months, illustrating how working as a team and implementing safety measures have not only protected employees but also improved overall productivity and morale. Our SHEQ manager Dave Turner delivered the conference, highlighting recent initiatives that have significantly reduced workplace incidents. Dave also spoke in detail about challenges in the past 6 months and how we can prevent any further failings. Each table took part in a group exercise, taking time to consider SMART objectives which could be included in the 5-year safety plan.

We have received some great feedback stating how informative and well delivered the day was, we look forward to welcoming you all in the summer for our next event.

# Reward & Recognition - Ben Fierman

A huge well done to Ben Fierman, for his recent proactive safety actions. During the extreme weather conditions on new years eve, Ben received a weather flood alert on his phone. As a result, Ben decided at 8.40pm on New Years Eve to go to his workplace at the Woodhouse Mill Site. After informing his Site Manager, David Kier, of his intentions, Ben moved the JCB Telehandler to a place of safety as this particular site is liable for flooding. He also removed all items from the cabin to prevent damage from flooding. Your efforts are truly appreciated and make a significant difference. Keep up the great work, Ben!

## New Case Study: Water Engineering Services

S&B Utilities recently partnered with Kier as a preferred supplier for Batch 22, which is part of Severn Trent Water's AMP7 capital program. Batch 22 encompasses a series of sewage treatment works improvement initiatives throughout the Severn Trent region, including upgrades to the pumping station and related assets at Pye Bridge STW in Derbyshire.

# Exceptional People: Employee Spotlight of the Month

## EMPLOYEE SPOTLIGHT

REBECCA RINGHAM

Rebecca joined the HIS Engineering team as an administrator almost 3 years ago and has become an integral part of the team.

“One of my key responsibilities is supporting the document control function of the HIS Engineering team. I am responsible for liaising with the team on any new training modules—I must communicate this to our team and ensure that this is complete on time. The favourite part of my job is how diverse each day is; there’s always room for a challenge and a chance to learn something new. When I first started my role as document controller, I had no previous experience in this, so it has been great to learn a new skill whilst on the job. I am very much looking forward to supporting the new projects that we have in the pipeline for 2025”.

Thank you for your efforts Rebecca, your contributions are an essential part of advancing our team goals.
